**The inspector is ordering the licensee to comply with a Compliance Order**

**[FLTCA, 2021, s. 155 (1) (a)]:**

1. Re-educate the two identified PSWs on the home's skin and wound policy and the home's pain management policy, specifically relating to immediate reporting upon identification of altered skin integrity and signs of pain.
2. Ensure a documented record is kept pertaining to step 1 of this order, including the contents of the education, dates, names and signatures of the staff educated, the mode of delivery, and name of person who provided the education.

**Grounds**

On a specified date, two PSWs observed an altered skin integrity to a resident's body part. The resident was showing signs of pain. The observations were not reported to the nurse until the resident was checked on at a later time when additional altered skin integrity was also observed. Based on the nurse's assessment, the resident had a visible injury to their body part.

Failure to immediately report the altered skin integrity and signs of pain delayed the resident's treatment. The resident was diagnosed with an injury that required surgery.

**Sources:** Home's investigation notes, home's skin assessment and wound guidelines policy, home's pain management program policy, home's video records, the resident's progress notes, interviews with a PSW, an RN, and the DOC.

**This order must be complied with by January 12, 2026**
